lunar energy | Ava Community Energy

For Market Rate Customers

Get more from your Lunar System

with Ava SmartHome Battery

SmartHome Battery gets more from your investment with an upfront rebate and ongoing incentives. It connects your home battery to a virtual power plant, sharing clean energy when the grid needs it most, cutting emissions and keeping rates stable for your community.

YOUR NEXT STEP

Build a Lunar System for your home

lunarenergy.com

Once your battery is installed and the connection to our VPP is confirmed, you or your installer will receive the rebate via email from rewards@reward.tremendous.com.
Income-qualified customers who receive CARE/FERA benefits have specific program parameters that differ from market-rate customers. See the income-qualified customer agreement for full details.
